Top Tier: One-Year MBA Degrees
The HKU MBA is offered in both weekday and weekend modes. Students can choose the study mode that best suits their work commitments. A certain degree of flexibility between weekday and weekend mode courses (for example, weekday mode can choose 3-weekend core courses and weekend mode can choose 3-weekday core courses; all subject to availability and approval by the Programme office). The weekday or weekend mode applies to core courses only, with electives offered from a common pool comprising courses in both modes.
Flexibility
Studying at your own pace, you can complete this MBA degree within 24 months whilst continuing your busy work schedule.

Modular Structure
Both weekday and weekend modes are offered on a modular basis to allow students to focus on studying one course at a time. Each module lasts about five weeks. This structure offers tremendous benefits to students, who may have intensive work commitments in a particular period, and can thus choose not to enroll in that module.

Regional Perspective
Our Asia-Pacific focus will give you a distinct advantage in building your career in the region. The focus on Asia and China business renders the programme highly relevant to the wider region’s dynamic, ever-evolving business environment.

Case-Based Approach
The HKU MBA programme adopts an experiential-learning approach, with the extensive use of business cases that enables students to become effective problem solvers and decision makers. These cases are written by our own professors and are published by our renowned Asia Case Research Centre (www.acrc.org.hk).

Diverse and Contemporary Elective Selection
Your MBA electives are often taught by industry practitioners to bring in real-world experience and experienced professors to solidify your management framework. Our elective courses include Artificial Intelligence for Business Leaders, Insights & Lessons: Reflections of a CEO, Online Business Strategy, Marketing for Tech-intensive Industries, Introduction to FinTech & Its Impact on the Future of Finance and Banking, International Field Project and so on.

Professional Development Workshops
Part-time MBA students will have access to professional development workshops and industry leadership talks. We invite professionals to guide our students through workshops that focus on topics such as personal branding, communication and industry knowledge enhancement. Leadership talks given by industry executives offer opportunities for students to engage in meaningful dialogue with business leaders, allowing students to gain an in-depth understanding of how global businesses work.

Entrepreneurial Incubation Lab
HKU MBA partners with Cyberport Academy, part of Hong Kong’s largest start-up incubation hub, to conduct the Entrepreneurial Incubation Lab course. The course aims to build up entrepreneurial mentality that leverage on the training, cultivate the capabilities of start-up founders to identify the market opportunities, and to engage in practical workshops to develop investor decks and present start-up pitch.

International Field Project
In the past few years, we have organised numerous international field trips to Asia, Europe and the US. International field project is an elective which helps our students understand business dynamics in different economies by visiting companies and institutions, and also speak with CEOs and top management of the visited companies.

Strong Alumni Network
More than 245,000 University alumni have spread worldwide representing over 150 nationalities. You can further expand your network regionally and globally.
