Reputation & Recognition
HKU has established a solid reputation as a premier international university and a member of the global family of universities.

Flexibility
Studying at your own pace, you can complete this MBA degree within 24 months whilst continuing your busy work schedule.

Modular Structure
Both weekday and weekend modes are offered on a modular basis to allow students to focus on studying one course at a time. Each module lasts for about five weeks. This structure offers tremendous benefits to students, who may have intensive work commitments during a particular period, and can thus choose not to enrol in that module.

Regional Perspective
Our Asia-Pacific focus will give you a distinct advantage in building your career in the region. The focus on Asia and China business renders the programme highly relevant to the wider region’s dynamic and ever-evolving business environment.

Case-Based Approach
The HKU MBA Programme adopts an experiential learning approach, with extensive use of business cases that enable students to become effective problem-solvers and decision-makers. These cases are written by our own professors and published by our renowned Asia Case Research Centre (https://www.acrc.hku.hk).
Diverse & Contemporary Elective Selection
Your MBA electives are often taught by industry practitioners and experienced professors to bring in real-world experiences and help solidify your management framework. Some of our elective courses include ESG, Sustainable Finance and Impact Investing, Managing Black Swans, Artificial Intelligence for Business Leaders, Insights and Lessons - Reflections of a CEO, and Online Business Strategy.

Professional Development Workshops
Part-time MBA students will have access to professional development workshops and industry leadership talks. We invite professionals to guide our students through workshops that focus on topics such as personal branding, communication, and industry knowledge enhancement. Leadership talks given by industry executives offer opportunities for students to engage in meaningful dialogues with business leaders, allowing them to gain in-depth understanding of how global business work.

Entrepreneurial Incubation Lab
HKU MBA partners with Cyberport Academy, part of Hong Kong’s largest start-up incubation hub to conduct the Entrepreneurial Incubation Lab course. The course aims to cultivate capabilities of start-up founders to identify market opportunities and help students build up an entrepreneur’s mentality that leverages the training. It also engages them in practical workshops to develop investor desks and present start-up pitches.

International Field Project
In the past few years, we have organised numerous international field trips to Asia, Europe, and the US. International Field Project is an elective that helps students understand business dynamics in different economies by visiting companies and institutions, and also speaking with CEOs and top management of the visited companies.

Strong Alumni Network
With more than 270,000 HKU alumni spread around the globe representing over 150 nationalities, you can further expand your network regionally and globally.

Alumni Lifelong Learning
HKU Business School offers its alumni the chance to enrol in one elective course per academic year to equip them with new knowledge, further strengthen their MBA networks, and stay connected to our business school. No course enrolment fee is charged.
